Specification Review   Code Review

Reviewer Note

You did a great job on translating the given Python code into C++! Your implementation is clear and concise and passes all of the required unit tests! Please refer to the code review for some tips on how you could further improve your code in some areas. On to the next project!

Correctness

- ✓ 'initialize_beliefs' works correctly.

- ✓ 'sense' works correctly.

- ✓ 'move' works correctly.

- ✓ Code works as expected.

Code Quality

- ✓ Readability
